

**U.S. AIR FORCE**

# ***Common Item Support Cost***

---

- **Topics of discussion:**
  - **Reprocurement data cost**
  - **Additional inventory and pipeline spares**
  
- **Issues:**
  - **Who picks up common item support cost?**
  - **Item already managed by C-ICP, what are the steps for a program's transition package?**
  - **Contractors told to use parts that are currently within govt inventory before going to other sources. Is this applicable if they need to pay for a transition plan?**
  - **What happens when other user is government? Who pays for Log Reassignment?**

U.S. AIR FORCE

# ***CLIN To Support Other Users***

---

- **Topic of discussion:**
  - **Establishing a CLIN for direct reimbursement**
  
- **Issues:**
  - **Identifying price within cataloging system to avoid customer's perception of "free issue"**
  - **Working the reimbursement for a government rqt. Need to work within stock fund for reimbursement.**
  - **How would funding flow for another service?**

U.S. AIR FORCE

# ***Reprocurement Data Acquisition***

---

- **Topics of discussion:**
  - **What reprocurement data will be available at the end of ISS contract?**
  - **Creating a requirement for all new procurements to negotiate pre-priced options for all data.**
  
- **Issues:**
  - **Obtaining data at the end of contract doesn't give time to verify for accuracy.**
  - **Some form of data needs to be delivered to avoid sole source environment.**

U.S. AIR FORCE

# ***Contracting Incentives - Multiple Users***

---

- **Topic of discussion:**
  - **Contracting language for competitively procured sustainment.**
  
- **Issues:**
  - **Change of scope**
  - **Negotiating equitable adjustment**
